Experience

Warehouse Lead | Amazon | 03/2022 - Current

- **Meticulous Record Keeping:** Diligently recorded information, tracked shortages, and noted discrepancies, maintaining up-to-date and accurate records.
- **Accurate Shipment Handling:** Played a key role in loading, unloading, and sorting cargo, contributing to precise and efficient weekly shipments.

Inbound Warehouse Associate | Target Logistics | 06/2020 - 01/2022

- **Enhanced Warehouse Efficiency:** Streamlined product flow by efficiently unloading and organizing deliveries, leading to a more effective warehouse operation.
- **Improved Order Processing:** Utilized lift and hand trucks for smart transportation of shipment materials, optimizing storage and accessibility, and speeding up order fulfillment.

Valet Driver | Lake Lanier Islands Resort - Auburn, GA | 03/2018 - 01/2020

- **Efficient Check-In Coordination:** Streamlined guest check-in by meticulously recording vehicle details and seamlessly coordinating with the front desk, significantly improving the guest experience.
- **Positive Guest Relations and Service:** Fostered repeat business by establishing strong guest relations through proactive communication and exemplary service, leading to high levels of guest satisfaction.
- **Tailored Guest Assistance:** Provided attentive luggage handling and personalized assistance, efficiently meeting guest needs through active listening and customized support.

Manager | Sonic Drive-in | 02/2015 - 11/2017

- **Target-Driven Sales Strategy:** Set and reviewed monthly sales goals with associates, cultivating a goal-oriented culture that significantly boosted store performance.
- **Optimized Kitchen Productivity:** Strategically scheduled and delegated tasks to cooks, enhancing staff productivity and overall kitchen efficiency.
- **Effective Team Collaboration:** Partnered with the management team to ensure equitable task distribution, resulting in more streamlined and efficient operations.

Education and Training

Correlation One | Remote Training | 10/2023

Certification in Data Engineering & Management: Data Management Technology

- Trained in Python, SQL, Excel, Tableau, Looker Studio
- 6 Month Advanced Boot Camp with Certified Instructors in Data Analytics Industry
- Collaborated on a team project addressing Zara's real-time inventory and marketing challenge. Using Excel for data organization, employing Python, and Tableau. When implemented, we achieved a 13% reduction in stockouts and maximized marketing reach with less financial expenditure.
- Scrutinized over 300 thousand lines of customer purchase data using Python and SQL, extracting insights that reshaped Best Buy's electronics promotion strategy, leading to an 18% increase in monthly store sales.
- Tasked with a time-sensitive issue at Walmart involving sales data mismatches across regional outlets. With SQL and Tableau, I pinpointed the mismatch origin and proposed corrective actions, saving the company \$60,000 in potential return and compensation costs.

University Of North Georgia | Dahlonega, GA

Some College (2 And Half Years): Computer And Information Sciences

- Studied Finance and Computer Information Sciences
- Fundamentals of Java Experience
- Python Fundamentals

Certifications

- Data Engineering & Analytics, Correlation One - 2023
- Oracle Cloud Data Management 2023 Certified Foundations Associate
